CAMERA & GIMBAL

Ronin 4D Tech Reel

DJI Ronin 4D

The shot that's hard to get.

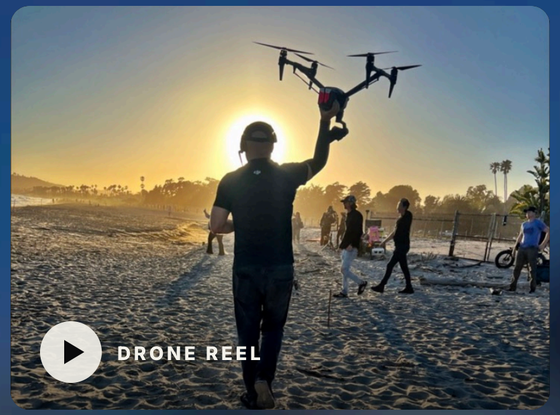

Drone up high, scissor crane in the middle, AntigravityCam down low, often all in one day.

ANTIGRAVITYCAM SPECIALIST

"A technocrane on two feet."

Floor to ceiling in one fluid move with a level horizon, and nothing tying the camera to a base.

AERIAL

Drone pilot, FAA Part 107

Main and 2nd unit aerials on features and network TV. DJI Inspire 3 with the Zenmuse X9 8K, and Avata 2 FPV.

VEHICLES

Black Arm & Patriot Camera Cars

RaptorZ ISO3 Black Arm on the camera car for full-speed chases, and Patriot Camera Cars, the electric shooting platform.

GIMBALS

Gimbal technician

Ronin 4D, Ronin 2, RS4 Pro and MōVI Pro. Gimbal tech on Way of the Warrior Kid.

About Jorel

Films, shows and campaigns, from first idea to final color. Fifteen years of network television, features with A-list talent and big-concept commercials, with the same craft brought to documentaries, podcasts, social, brand work and live events.

Producer, director, DP, editor, colorist and Technical Director in one hire, carrying a project from concept to delivery. When the shot needs to move: drone up high, scissor crane in the middle, AntigravityCam down low.

Came up from the bottom and takes no frame for granted. On time or early, with ideas that make the day faster and the picture better.

> "The composition constantly dazzles... heightened and grimly gorgeous cinematography."
>
> Andrew Buckner, Without Your Head, on HURT

> "Jorel's cinematography is beautiful."
>
> Michael Gingold, Rue Morgue, on HURT
